

## KIRSTEN (PATE) KELLY

Instagram

Kirsten Kelly is a rare, indigenous Nashville native. At just 19 years old she had the opportunity to leave the salon scene and move to Los Angeles to travel with pop-star, Miley Cyrus. Her roots brought her back home because that's the kind of girl she is—down to earth with an appreciation for the southern standard of living. Kirsten excels in men's grooming and imaging and has a beautifully light hand with women's makeup and hair, keeping looks natural, pretty, and soft.Â
